

MORAL COURAGE FOR K-12 SCHOOLS

Our world is increasingly complex and polarized at the same time.

Now more than ever, young people – and the adults in their lives – need the skills to hear, not fear, different perspectives.

Diversity Without Division teaches these skills in three unique ways:

1

From primary grades to high school, students are mentored through interactive and age-appropriate activities.

2

Faculty, staff, and administrators receive professional development to turn contentious issues into constructive conversations, in class and beyond.

3

Parents learn how to engage productively with school officials about issues that are highly emotional.

HOW CAN YOUR SCHOOL OR DISTRICT ACHIEVE DIVERSITY WITHOUT DIVISION?

The quickest on-ramp is our online PD course, "Diversity Without Division: For K-12 Educators, Students, and Parents."

This 7-hour course is pre-recorded, self-paced, and only \$99 per seat. Enroll multiple participants and make it a team-building exercise!
